Concussions Through the Eyes of Concussion Sufferers and Their Families

The 6th Annual Concussion Research Symposium is dedicated to the **Families of Rowan Stringer and Steve Montador**, and highlights the importance of the consequences of concussions to the families involved. Members of the Stringer and Montador families will be participants at the Public Forum on May 11 and the Research Symposium on May 12.

Keynote speakers include: **Dr. William Stewart**, Honorary Clinical Associate Professor at the University of Glasgow, and **Katherine Snedaker**, the founder of the Pink Concussion Conferences who will be speaking at both events about concussions in women and girls.

There is no charge for attendance, but you must register beforehand at
